

Accent – Rehabilitation consultant - Full time

Looking for that something different? Want to step outside the square?

You have probably heard it all before: High Salary, realistic KPI's and billables, lower case loads...

When every ad says basically the same thing how do you know what is really attractive? What is it that would really make you jump from where you are?

What about if the organisation you jumped to did things different from the rest?

What if the organisation you jumped to provided total HR solutions:

- Outsource HR
- Outsource claim management
- Health and Wellness programs
- HR systems and development
- OHS
- Learning and Development and a partnership with the largest community College in NSW
- Management consulting

.....and occupational rehabilitation too!

What if the organisation you jumped to offered you this as part of your portfolio? Would that interest you?

What if we also tell you that the organisation you jump to offers:

Cutting edge *remuneration and benefits* packaging... lets discuss flexible work from home practices, extended annual leave, paid study leave, paid monthly staff development day and reimbursement of travel?

Do you have account management and marketing skills...lets talk further about *your* role at Accent.

Our staff are headhunted on a regular basis. Call us and find out why.

If you are an OT, RC, EP, Psych or other allied health professional with drive, personality, a thirst for development and the desire for something different, then call Daniel or Kaye on 4731 5009. Applications in writing to Daniel De Paoli, PO Box 1165 Penrith NSW 2751 or daniel@accentonhealth.com.au
